

IDU is concerned about the situation of refugees in Uganda

Motion for resolution of the IDU Executive on Uganda:

Moved by the overwhelming and escalating situation of refugees in Uganda, especially, from the South Sudan;

Realising that Ugandan military has been, from time to time, deleteriously deployed in regional conflicts, thereby triggering or exacerbating the displacement of people;

Now therefore, resolve as follows:

1. That IDU commends Ugandans for hosting and caring for an overwhelming number of asylum seekers and refugees.
2. That IDU calls on the international community to urgently respond to the humanitarian crisis caused by the influx of refugees into Uganda.
3. That IDU calls on Uganda and other regional governments to respect international and domestic law and to exercise maximum prudence in deploying forces outside their borders.
